

**Statement regarding use of non-GAAP financial measures**

In this press release, the Company's financial results and financial guidance are provided in accordance with accounting principles generally accepted in the United States (GAAP) and using certain non-GAAP financial measures. Management believes that presentation of operating results using non-GAAP financial measures provides useful supplemental information to investors and facilitates the analysis of the Company's core operating results and comparison of operating results across reporting periods. Management also uses non-GAAP financial measures to establish budgets and to manage the Company's business. A reconciliation of the GAAP financial results to non-GAAP financial results is included in the attached schedules.

Following is a description of the adjustments made to GAAP financial measures:

- Acquisition – amortization of intangible assets: Represents recurring amortization charges resulting from the acquisition of intangible assets, including developed technology and database rights.
- Acquisition – integration related costs: Costs related to closing and integration of acquired companies
- Equity compensation – non-cash equity based compensation provided to Myriad employees
- Deferred Tax impact of non-GAAP adjustments: Changes in effective tax rate based upon ASU 2016-09 and the deferred tax impact of non-deductible acquisition costs
- Potential future consideration related to acquisitions: Non-cash expenses related to valuation adjustments of earn-out and milestone payments tied to recent acquisitions
- Elevate Initiatives: Expenses tied to Elevate 2020 program

The Company encourages investors to carefully consider its results under GAAP, as well as its supplemental non-GAAP information and the reconciliation between these presentations, to more fully understand its business. Non-GAAP financial results are reported in addition to, and not as a substitute for, or superior to, financial measures calculated in accordance with GAAP.
